

Prepared according to Global Harmonized System (GHS) standards.

Substance/Product Identification

The Lubrizol Corporation 29400 Lakeland Boulevard Wickliffe, Ohio 44092 Tel: (440) 943-4200

Product Trade Name FZ1508AX

CAS Number Not applicable for mixtures.

SynonymsNone.Generic Chemical NameMixture.Recommended UseMultipurpose.Restrictions on useNot determined.Created Date20 February 2012Preparation/Revision Date22 August 2013

Transportation Emergency Phone FOR TRANSPORT EMERGENCY call CHEMTREC: (+1) 703-527-3887 (outside the U.S.), 1-800-424-9300 (in the

No. U.S.)

MSDS No. 23460644-1521468-3025321-102103

2 Hazards Identification

AppearanceAmber liquid.OdorMild

Classification Hazardous to the aquatic environment (chronic hazard) category 3

Target OrgansNot determined.Signal WordNot determined.

Hazard statement Harmful to aquatic life with long lasting effects.

Other Hazards None identified.

 Precaution(s)
 Avoid release to the environment.

 Storage Procedures
 Store away from oxidizers.

Disposal All disposal practices must be in accordance with local, national and international regulations.

See Section 11 for complete health hazard information.

Composition/Information on Ingredients

Hazardous Ingredients

Comp	CAS No.	Percentage (by wt.)	Carcinogen
Zinc alkyldithiophosphate	84605-29-8	From 1 to 4.9 percent	N/E

4 First Aid Measures	
----------------------	--

Eyes Flush with water at least 30 minutes. Get medical attention if eye irritation develops or persists.

Skin Wash with soap and water. Remove contaminated clothing. Get medical attention if irritation develops. Launder contaminated

clothing before reuse.

Inhalation Remove exposed person to fresh air if adverse effects are observed. If irritation persists or if toxic symptoms are observed,

get medical attention.

Ingestion DO NOT INDUCE VOMITING. Get immediate medical attention.

Advice for the protection of first-aid When providing first aid always protect yourself against exposure to chemicals or blood born diseases by wearing gloves,

providers masks and eye protection. After providing first aid wash your exposed skin with soap and water.

Note to a description of the state of the

Additional Information Note to physician: Treat symptomatically.

5 Fire Fighting Measures

Flash Point 195 °C, 383 °F PMCC (Typical)

Extinguishing Media

CO2, dry chemical, foam, water spray, water fog. Water can be used to cool and protect exposed material.

Unsuitable Extinguishing Media

Not determined.

Firefighting Procedures

Recommend wearing self-contained breathing apparatus. Do not direct a solid stream of water on spilled material. Use flooding amounts of water as a fog. Use water to cool containers exposed to fire. A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. Do not release chemically contaminated water

into drains, soil or surface water.

Unusual Fire & Explosion Hazards

Elevated temperatures can lead to the formation of irritating fumes and vapors. Container may rupture in a fire situation. DO NOT USE a solid stream of water. Burning may produce irritating, toxic and obnoxious fumes. See section 10 for additional

information.

6 Accidental Release Measures

Personal precaution, protective equipment and emergency procedures

Only trained personnel should be permitted in area. Personal protective equipment must be worn. Avoid contact with skin, eyes or clothing. Ventilate area if spilled in a confined space or other poorly ventilated area. Material on floor may be

Environmental precaution and protective procedures.

Material will float on water. Take precautions to avoid release to the environment. Do not flush into surface water, sanitary sewer or ground water system.

Methods for clean-up and removal

Shut off leak if without risk. Pick up free liquid for recycle and/or disposal. Pump any free liquid into an appropriate closed container. Residual liquid can be absorbed on inert material. Place in metal containers for recovery or disposal.

Handling and Storage

Pumping Temperature

70 °C, 158 °F

Maximum Handling Temperature

70 °C, 158 °F

Handling Procedures

Keep containers closed when not in use. Do not discharge into drains or the environment, dispose to an authorized waste collection point. Use appropriate containment to avoid environmental contamination. When handling, do not eat, drink, or smoke. Avoid breathing vapor. Avoid contact with eyes, skin and clothing. Ground and bond containers when transferring material. Wash thoroughly after handling. Launder contaminated clothing before reuse. Empty containers retain material residue. Do not cut, weld, braze, solder, drill, grind or expose containers to heat, flame, spark or other sources of ignition. Dispose of packaging or containers in accordance with local, regional, national and international regulations.

Maximum Storage Temperature Storage Procedures

45 °C, 113 °F

Store separately from oxidizers. Take precautions to avoid release to the environment. Store in a cool, dry, well-ventilated area. Odorous and toxic fumes may form from the decomposition of this product if stored at temperatures in excess of 113 deg F (45 deg C) for extended periods of time or if heat sources in excess of 250 deg F (121 deg C) are used. Store separately from incompatible materials. Keep container tightly closed. Do not store in open, unlabeled or mislabeled containers. See section 10 for incompatible materials.

Maximum Loading Temperature

70 °C, 158 °F

Exposure Controls/Personal Protection

Exposure Limits

EH

Not applicable.

UK

Not applicable.

Ireland

Not applicable.

India

Not applicable.

Cyprus

Not applicable.

Other Exposure Limits

Contains mineral oil. Under conditions which may generate mists, observe the OSHA PEL of 5 mg per cubic meter, ACGIH

TWA of 5 mg per cubic meter.

Engineering Controls

Material should be handled in enclosed vessels and equipment, in which case general (mechanical) room ventilation should be sufficient. Local exhaust ventilation should be used at points where dust, mist, vapors or gases can escape into the room air.

Personal Protective Equipment Respiratory Protection

Use half mask respirator with an organic vapor cartridge if exposure limit is exceeded. Use self-contained breathing apparatus for entry into confined space, for other poorly ventilated areas and for large spill clean-up sites.

Eye Protection Safety glasses. If potential for splash or mist exists, wear chemical goggles or faceshield.

Gloves Procedures Nitrile. Consult clothing/glove manufacturer to determine appropriate type of glove for given situation. Gloves should always

be inspected before each use and discarded if they show tears, pinholes, or signs of wear.

Clothing Recommendation Long sleeve shirt is recommended. Wear a chemically protective apron when contact with material may occur. Do not wear

rings, watches or similar apparel that could entrap the material and cause a skin reaction. Launder contaminated clothing

before reuse.

Hygiene Measures Wash thoroughly after handling this product. Do not eat, drink or smoke when using this product.

9 Physical and Chemical Properties

Flash Point 195 °C, 383 °F PMCC (Typical)

 Upper Flammable Limit
 Not determined.

 Lower Flammable Limit
 Not determined.

 Autoignition Point
 Not determined.

 Decomposition Temperature
 Not determined.

Explosion Data Material does not have explosive properties.

Vapor PressureNot determined.pHNot determined.Specific Gravity0.87 (15.6 °C)

Bulk Density 7.27 Lb/gal, 0.87 Kg/L

Water Solubility Insoluble.

Percent Solid Not determined.

Percent Volatile Not determined.

Volatile Organic Compound Not determined.

Vapor Density Not determined.

Evaporation Rate Not determined.

Water/Octanol Coefficient Not determined.

Odor Mild

Odor Threshold Not determined.

Appearance Amber liquid.

Viscosity 113 Centistokes (25 °C) 57 Centistokes (40 °C)

10 Centistokes (40 °C)

Boiling PointNot determined.Boiling Point RangeNot determined.Pour Point Temperature-33 °C, -27 °FMelting / Freezing PointNot determined.

The above data are typical values and do not constitute a specification. Vapor pressure data are calculated unless

otherwise noted.

10 Stability and Reactivity

Stability Material is normally stable at room temperature and pressure. See the Handling and Storage Section for further details.

 Decomposition Temperature
 Not determined.

 Incompatibility
 Oxidizing agents.

 Polymerization
 Will not occur.

Thermal Decomposition Smoke, carbon monoxide, carbon dioxide, aldehydes and other products of incomplete combustion. Hydrogen sulfide and

alkyl mercaptans and sulfides may also be released.

Conditions to Avoid Do not expose to excessive heat, ignition sources, or oxidizing materials. High temperatures.

Toxicological Information

-- ACUTE EXPOSURE --

Eye Irritation Not expected to cause eye irritation. Based on data from components or similar materials.

Skin Irritation Not expected to be a primary skin irritant. Based on data from components or similar materials. Prolonged or repeated skin

contact as from clothing wet with material may cause dermatitis. Symptoms may include redness, edema, drying, and

cracking of the skin.

Respiratory Irritation If material is misted or if vapors are generated from heating, exposure may cause irritation of mucous membranes and the

upper respiratory tract. Based on data from components or similar materials.

Dermal Toxicity The LD50 in rabbits is > 2000 mg/Kg. Based on data from components or similar materials.

 Inhalation Toxicity
 No data available to indicate product or components may be a toxic inhalation hazard.

 Oral Toxicity
 The LD50 in rats is > 10,000 mg/Kg. Based on data from components or similar materials.

Dermal SensitizationNo data available to indicate product or components may be a skin sensitizer.Inhalation SensitizationNo data available to indicate product or components may be respiratory sensitizers.

Aspiration Hazard Not determined.

-- CHRONIC EXPOSURE --

Chronic Toxicity No data available to indicate product or components present at greater than 1% are chronic health hazards.

Carcinogenicity This product contains mineral oils which are considered to be severely refined and not considered to be carcinogenic under

IARC. All of the oils in this product have been demonstrated to contain less than 3% extractables by the IP 346 test.

Mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Reproductive Toxicity No data available to indicate either product or components present at greater than 0.1% that may cause reproductive

toxicity.

Teratogenicity No data available to indicate product or any components contained at greater than 0.1% may cause birth defects.

-- ADDITIONAL INFORMATION --

Other No other health hazards known.

12 Ecological Information

-- ENVIRONMENTAL TOXICITY --

Freshwater Fish Toxicity
The acute LC50 is 100 - 1000 mg/L based on component data.

Freshwater Invertebrates Toxicity
Chronic effects expected at 10 - 100 mg/L based on component data.

Algal InhibitionNot determined.Saltwater Fish ToxicityNot determined.Saltwater Invertebrates ToxicityNot determined.Bacteria ToxicityNot determined.Miscellaneous ToxicityNot determined.

-- ENVIRONMENTAL FATE --

Biodegradation At least 25% of the components in this product show moderate biodegradation based on OECD 301-type test data.

Bioaccumulation Less than 1.0% of the components potentially bioconcentrate, based on octanol/water coefficients.

Soil Mobility Not determined.

Notes None known.

13 Disposal Considerations

Disposal Considerations All disposal practices must be in accordance with local, regional, national and international regulations. Do not dispose in

landfill.

Contaminated Containers or

Packaging

Empty container retains product residue and can be hazardous. Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat, flame, sparks, static electricity, or other sources of ignition. Dispose of packaging or containers in

accordance with local, regional, national and international regulations.

14 Transport Information

ICAO/IATA I Not regulated. ICAO/IATA II Not regulated. IMDG Not regulated. **IMDG EMS Fire** Not applicable. IMDG EMS Spill Not applicable. IMDG MFAG Not applicable. MARPOL Annex II Not determined. **USCG Compatibility** Not determined. DOT NAERG Not applicable.

Review classification requirements before shipping materials at elevated temperatures.

15 Regulatory Information

USA All components of this material are on the US TSCA Inventory or are exempt.

Other TSCA Reg. None known.

EU To obtain information on the REACH compliance status of this product, please visit Lubrizol.com/REACH, or e-mail us at

 $REACH_MSDS_INQUIRIES@Lubrizol.com$

JapanAll components are in compliance with the Chemical Substances Control Law of Japan.AustraliaAll components are in compliance with chemical notification requirements in Australia.New ZealandAll components are in compliance with chemical notification requirements in New Zealand.

Canada All components are in compliance with the Canadian Environmental Protection Act and are present on the Domestic

Substances List.

Switzerland All components are in compliance with the Environmentally Hazardous Substances Ordinance in Switzerland.

Korea All components are in compliance in Korea.

Philippines All components are in compliance with the Philippines Toxic Substances and Hazardous and Nuclear Wastes Control Act of

1990 (R.A. 6969).

ChinaThis product may be imported to China only by Lubrizol China.TaiwanAll components of this product are listed on the Taiwan inventory.

Miscellaneous Regulatory

Information

Not determined.

-- Other U.S. Federal Regulations --

SARA Ext. Haz. Subst.

This product does not contain greater than 1.0% of any chemical substance on the SARA Extremely Hazardous Substances

list.

SARA Section 313 From 1 to 4.9 percent zinc compounds; contains 0.3% as Zn.

SARA 311 Classifications

Acute Hazard	No
Chronic Hazard	No
Fire Hazard	No
Reactivity Hazard	No
None known.	

CERCLA Hazardous Substances

-- State Regulations --

Cal. Prop. 65 This product contains the following chemical(s) known to the state of California to cause cancer and/or birth defects based on

maximum impurity levels of components: < 0.01 ppm lead
